Historic Preservation and Zoning Agenda

Rear Yard Requirements to Renovate an Existing Structure to Create a Mixed-Use Building Containing Eight Dwelling Units with a Ground-Floor Restaurant

Commissioner Warwick moved to adopt a proposed resolution regarding the matter. Chair Mann seconded the motion, which was voted on and passed (VOTES: 5-3-1). The resolution reads as follows:

WHEREAS, the project as proposed is within the confines of Advisory Neighborhood Commission 2B,

WHEREAS, ANC 2B would like to note that the project is on a rectangular lot in a historic district which is a quite ordinary condition,

WHEREAS, ANC 2B notes that compliance with historic preservation is not an extraordinary condition—it is a quite ordinary condition in Dupont Circle and the 40% of the District of Columbia built environment which is located within a historic district,

WHEREAS, ANC 2B is concerned with the proposed impacts on the zone plan and the surrounding property views, light, and air quality,

WHEREAS, ANC 2B is concerned with the project building to the lot line on two sides and nearly to the lot line in the rear, relying on the property and continued air rights of other owners, and

WHEREAS, the tavern tenants of 2147-2149 P Street NW have caused adverse impacts on the peace, order, and quiet of the neighborhood due to their nightlife orientation.

THEREFORE, BE IT RESOLVED that ANC 2B does not object to the project, contingent on a condition of approval by the Board of Zoning Adjustment that revokes the ability of the property in perpetuity to apply for and receive an alcohol license.

2200 P Street NW – Relocation and Renovation of Landmark Gas Station, and Construction of Nine-Story Addition

Commissioner Warwick moved to adopt a proposed resolution to the Historic Preservation Review Board (HPRB) regarding the matter. Commissioner Nichols seconded the motion, which was voted on and passed (VOTES: 9-0-0). The resolution reads as follows:

WHEREAS, the proposed development at 2200 P Street NW is within Advisory Neighborhood Commission 2B and the Dupont Circle Historic District, and is under the purview of the Commission of Fine Arts pursuant to the Shipstead-Luce Act,

WHEREAS, the applicant proposes to move the historic landmark Embassy Gulf Station for the closing of the Sunoco service and petroleum station and the development of a nine-story new construction residential building,
WHEREAS, of the 23 service stations in the District of Columbia designed by Pierre Hogner for Gulf Oil between 1935 and 1941, this structure is the least altered of three remaining and is the only surviving service station designed in the neoclassical style,

WHEREAS, the applicant proposes to close the service station, requiring the approval of the Gas Station Advisory Board, which since 2007 has been unable to enjoy a quorum to vote on any matters due to its lack of members,

WHEREAS, many neighbors have reached out to ANC 2B regarding their concern with the proposed permanent closure of the service station,

WHEREAS, depending on the option, the massing as the proposal includes up to a fourteen-foot cantilever over the neighboring Dumbarton Place Condominium Association’s surface parking lot,

WHEREAS, depending on the option, the cantilever has a floor area of approximately 15% of the total gross floor area of the proposed new construction, and

WHEREAS, the applicant and Dumbarton Place Condominium Association have not yet reached an agreement regarding a permanent easement allowing the development of a cantilever over their property.

THEREFORE, BE IT RESOLVED that ANC 2B believes it is troubling to consider moving the historic landmark, as historic landmarks are defined by their built environment and removing the gasoline pumps and open space surrounding the Embassy Gulf Station removes it from the built environment context.

BE IT FURTHER RESOLVED that ANC 2B believes it is too soon for the Historic Preservation Review Board to consider the application due to the applicant’s inability to close the service station without approval of the Gas Station Advisory Board and its massing proposal which intrudes on a neighboring property without their agreement.

Commissioner Warwick moved to adopt a proposed resolution to the District Department of Energy and Environment (DOEE) regarding the matter. Commissioner Smith seconded the motion, which was voted on and passed (VOTES: 9-0-0). The resolution reads as follows:

WHEREAS, a proposed development within the confines of Advisory Neighborhood Commission 2B calls for the closure of the Embassy Gulf Service Station, a service and petroleum station at 2200 P Street NW,

WHEREAS, ANC 2B understands that the closure of a service station within the District of Columbia requires the approval of the Gas Station Advisory Board, which is under the purview of the Department of Energy and the Environment, and

WHEREAS, ANC 2B understands that the closure is likely to be a difficult objective to achieve due to the Gas Station Advisory Board’s lack of members since 2007.
THEREFORE, BE IT RESOLVED that ANC 2B requests that the Department of Energy and the Environment send a letter detailing the procedure to approve closure of a service station under current laws.

THEREFORE, BE IT RESOLVED that ANC 2B supports the project as proposed.

Commissioner Warwick moved to adopt a proposed resolution regarding the matter. Commissioner Johnson seconded the motion, which was voted on and passed (VOTES: 5-2-2). The resolution reads as follows:

WHEREAS, it has come to the attention of ANC 2B that projects with partially below-grade spaces with the characteristic of 1514 Q Street NW do not count against gross floor area. This appeal of a building permit requests those partially below-grade spaces to be counted against gross floor area.

THEREFORE, BE IT RESOLVED that ANC 2B requests an abundance of clarification regarding the gross floor area measurement issue.

The ANC also wants to make sure that Safeway has talked with the District Department of Transportation (DDOT) regarding the configuration of the Capital Bikeshare station currently placed on the site of the proposed sidewalk cafe. The ANC asks DDOT to confirm that
