Consideration of a Resolution Regarding the Recent Death of a Cyclist at the Intersection of M Street and New Hampshire Avenue NW

Commissioner Silverstein moved to adopt a proposed resolution regarding the matter. Commissioner Davies seconded the motion, which was voted on and passed (VOTES: 7-0-0).

The resolution reads as follows:

Advisory Neighborhood Commission 2B notes with sadness the death of Jeffrey Hammond Long and offers our sincere condolences to his family and friends. Jeffrey Long died July 8th, 2018 as a result of injuries sustained in a bicycle collision in the 2100 block of M Street NW. This is the same immediate area where David Narvaez was struck and killed by a hit and run driver in August of 2016.

ANC 2B urges the Metropolitan Police Department to conduct a full and complete investigation of the collision and make its findings public without delay, so that the DC Government may take whatever steps are necessary to ensure and improve public safety in the area around M Street, New Hampshire Avenue, and 21st Street NW.

Commissioner Announcements

Commissioner Maltz said that, after five and half years as an ANC 2B Commissioner, tonight will be her last ANC 2B meeting as a Commissioner. She said that she and her family will be
moving out of her single member district in the next few weeks. She added that it has been an honor to serve on the ANC. She said that due to DC Board of Elections policies, the ANC 2B03 Commissioner seat will remain vacant through the end of the 2018.

Other Public Announcements and General Comments or Future Agenda Items

Jerry Chapin, a Ward 2 representative for the Mayor’s Office of Community Relations and Services (MOCRS), said that DC is currently in a heat emergency. He said that the DC Government is operating a number of cooling centers across the city. He said that local residents can find out more information regarding the city’s cooling centers at www.dc.gov. He added that, as a result of the heat emergency, the Department of Public Works (DPW) will begin picking up residential trash an hour earlier. He encouraged local residents to call DC’s hyperthermia hotline at (202) 399-7093 if they see any individuals experiencing homelessness out in the heat.

Lt. Jerome Merrill, a representative for the Metropolitan Police Department’s (MPD) Second District, gave an overview of the recent fatality of a bicyclist at the intersection of M Street and New Hampshire Avenue NW. He said that fault has not yet been determined for the incident. He said that MPD will be increasing traffic enforcement in the area where the incident took place. He added that MPD and the District Department of Transportation (DDOT) will use the results of the investigation of the incident to determine what steps need to be taken to improve safety at the intersection. He added that MPD will distribute any information regarding the incident to the ANC once the information is publicly released.

Joe Florio, a representative for Councilmember Jack Evans’ Office, said that the DC Council had its last legislative meeting yesterday before its summer recess. He said that the DC Council will reconvene in mid-September. He said that Councilmember Evans recently successfully worked to dedicate a portion of DC’s sales tax to the DC Commission on the Arts and Humanities. He added that Councilmember Evans also recently introduced a bill to reinforce DC’s current but unenforced ban on the distribution of straws at food establishments in DC. Commissioner Johnson asked about Councilmember Evans’ role with the recently-introduced DC Council bill that would repeal Ballot Initiative 77. Mr. Florio said that Councilmember Evans co-introduced the repeal bill. He said that Ward 2 has the largest share of DC’s restaurant industry and that Councilmember Evans believes that Ballot Initiative 77 will negatively harm the city’s restaurants and their employees. He added that the DC Council will be holding a public hearing regarding the repeal bill before acting on it.

Susan Volman, a Board Member for the Dupont Circle Citizens Association (DCCA), said that DCCA will be holding its annual house tour in October. She asked for local residents to volunteer their houses to take part in the event. She added that DCCA has been working hard to improve the triangle park at the intersection of T Street and New Hampshire Avenue NW and the triangle park adjacent to Freedom Market at 1901 New Hampshire Avenue NW.

The resolution reads as follows:

WHEREAS, ANC 2B represents a very diverse neighborhood of both residents and businesses which rely upon many modes of transportation, including rail, bus, cars, scooters, bicycles, and walking,

WHEREAS, cycling is most popular in the neighborhoods and tourist areas closest to downtown and in the northwest quadrant of the city, with DC ranking third in the nation for bicycle commuting among large cities and first on the East Coast,

WHEREAS, ANC 2B has a long-standing record of supporting walking, biking, carsharing, and the use of public transit to become one of the most walkable, bikeable, and accessible neighborhoods in the District and the country,
WHEREAS, the population density in the Dupont Circle neighborhood has continued to increase, with an increasing percentage of the population choosing to utilize the vast network of bike lanes for commuting as well as recreation,

WHEREAS, increasing bicycle and vehicle traffic congestion has created the need to expand the network of protected bike lanes in the Dupont Circle neighborhood,

WHEREAS, the 15th Street NW protected bike lanes are increasingly congested during rush hour, creating unsafe conditions,

WHEREAS, ANC 2B recognizes that the grid of one-way streets can present traveling challenges for cyclists, resulting in a substantial amount of resident, commuter, and visitor bicyclists who regularly ride northbound, against traffic, on 17th Street NW,

WHEREAS, ANC 2B supports access for all users to the businesses along 17th Street NW, which forms one of the commercial backbones of our neighborhood,

WHEREAS, ANC 2B recognizes that cyclists and pedestrians are an especially vulnerable group of road users,

WHEREAS, the District Department of Transportation (DDOT) is in the process of introducing traffic calming measures throughout the District as part of its Vision Zero initiative to improve pedestrian, cyclist, and motorist safety,

WHEREAS, design elements to foster these safety efforts include such elements as protected and unprotected bike lanes, pedestrian islands, dedicated bus lanes, restrictive traffic crossing lanes, and dedicated commercial and rideshare zones,

WHEREAS, ANC 2B supports traffic calming tools to increase pedestrian, cyclist, and motorist safety, and

WHEREAS, at the regular and duly-noticed public meeting of ANC 2B’s Transportation and Public Infrastructure (TPI) Committee on May 16th, 2018, the District Department of Transportation presented further-conducted studies and design developments regarding the proposed 17th Street NW two-way protected bike lanes and pedestrian and curbside management safety improvements, including:

- Measures of Effectiveness (MOEs) Model
- 17th Street NW Traffic Analysis Study
- 17th Street NW Supplemental Analyst Memo

THEREFORE, BE IT RESOLVED that ANC 2B supports the District Department of Transportation’s further study and focused community engagement of the proposal to install pedestrian, cyclist, and curbside management safety improvements along 17th
Street between New Hampshire Avenue and Massachusetts Avenue NW and encourages the study of the following elements:

- the impact and study of commercial properties, service deliveries, and residential parking
- additional traffic studies, consultations, and consideration of additional locations that are reserved for loading during portions or all of the day for commercial loading, retail customers, and local residents
- pick up and drop off zones for taxis and transportation network companies such as Uber and Lyft
- consideration of one-side-of-street-only commercial loading
- extending the studied area and protections to Farragut Square
- consideration of the conversion of 17th Street south of Massachusetts Avenue NW into a two-way roadway at all times by eliminating the one-way southbound configuration that exists during the morning peak period to eliminate potential confusion caused by switching access
- signage advising cyclists that they must stop/yield for pedestrians at all times
- signage advising pedestrians that they must cross only at the crosswalk
- painted curb bulb-outs
- consideration of angled parking options
- a shared street / woonerf / parklet concept along the commercial corridor of 17th Street NW
- should protected bike lanes be installed, a barrier, such as a raised curb, to more effectively separate the cyclist and pedestrians from traffic and parking and to be difficult for drivers to violate
- should protected bike lanes be installed, signal phasing at locations where traffic may turn right across the bike lanes to separate turning vehicles from through cyclists and protect against crashes
- should protected bike lanes be installed, corner islands where viable to reduce turning speeds across the bike lanes and shorten the crossing distance for pedestrians
- should protected bike lanes be installed, bike signals where such use would not overly limit the amount of signal phase time given to cyclists, rather than forcing cyclists to rely on pedestrian signals
- should protected bike lanes be installed, treatments such as bike boxes and two-stage turn queue boxes at intersections to enable cyclists to safely transition onto and off of the protected bike lanes at cross streets
- should the protected bike lanes end at New Hampshire Avenue NW, consideration of how cyclists wishing to continue north beyond New Hampshire Avenue will be able to complete their trip

BE IT FURTHER RESOLVED that ANC 2B requests and expects that the District Department of Transportation and the project team will continue to engage and consult with the ANC, Historic Dupont Circle Main Streets, residents, merchants, business workers, business distributors, and other community stakeholders on the continued
development of the project, including a stakeholder consultation plan and timeline to be presented to the ANC no later than August 15th, 2018.

BE IT FURTHER RESOLVED that ANC 2B requests and expects that the District Department of Transportation will be timely, transparent, and accountable to the community concerning issues that could cause delay or alteration of the project.

Consideration of a Resolution Regarding the District Department of Transportation’s Dupont / Kalorama Curbside Management Study

Commissioner Downs moved to adopt a proposed resolution regarding the matter. Commissioner Johnson seconded the motion, which was voted on and passed (VOTES: 9-0-0). The resolution reads as follows:

WHEREAS, the District Department of Transportation (DDOT) initiated a city-wide Curbside Management Study in October of 2014,

WHEREAS, DDOT’s study of parking in ANC 2B and ANC 2D was extremely thorough and identified the following conditions, among others:

- The number of vehicles with residential parking permits (RPP) is 1.7 times greater than the number of RPP spaces in North Dupont and 2.6 times greater in South Dupont,
- 30% of vehicles parked in RPP spaces in North Dupont/Sheridan-Kalorama are vehicles registered to addresses in Ward 2 outside of North Dupont/Sheridan-Kalorama,
- There is limited parking availability during midday, evenings, and weekends in North Dupont, and parking occupancy throughout Dupont and Sheridan-Kalorama is greater than 80% on weekends,
- Overnight parking occupancy is more than 90% in North Dupont and Sheridan-Kalorama,
- In South Dupont, occupancy is indicative of employment/retail-centric destinations (70% of the occupancy is generated by out-of-state parkers),
- There are 125 unregulated spaces in the area (neither RPP nor metered),

WHEREAS, Dupont Circle is one of the most walkable and transit-dependent neighborhoods in the District of Columbia,

WHEREAS, according to the U.S. Census Bureau’s American Community Survey 2012-2016 5-year sample for the census tracts which include the Dupont Circle neighborhood, 52% of Dupont Circle households do not own a vehicle,

WHEREAS, among households which do not own a vehicle, more effective management of curbside space towards a higher vacancy rate allows for the occasional parking of carshare and rental vehicles, use of a space as pickup/dropoff, and parking for visitors,
WHEREAS, DDOT held an initial stakeholders meeting in May of 2015, and subsequent
stakeholders meetings in August of 2015, May and June of 2016, and March of 2018 to
discuss the data from DDOT’s Curbside Management Study, the neighborhood-scale
curbside planning approach, neighborhood priorities, and short- and long-term
recommendations for ANC 2B and ANC 2D,

WHEREAS, through these meetings with DDOT and separate meetings of the
stakeholders group in January and March of 2018, the following overarching priorities
were identified to enhance fair and equitable management of limited curbside access:

- Residential Permit Parking: Manage the neighborhood supply and demand in
  favor of residents,
- Visitor Parking: Accommodate needed visitor parking through a controlled-access
  program,
- Commercial Parking: Manage commercial parking spillover onto residential
  streets while ensuring adequate parking and commercial access for patrons and
deliveries,
- Enforcement: Enhance the consistency and timeliness of enforcement of parking
  rules and violations,
- Signage: Clarify and simplify signage for parking spaces to avoid confusing and
  conflicting information,

WHEREAS, in June of 2018 ANC 2B conducted an online survey of residents of,
businesses within, and visitors to ANC 2B regarding proposals for a local parking
management pilot program,

WHEREAS, ANC 2B received nearly 200 responses to the survey, which ranked the vast
majority of the proposed pilot program components as positive on a one to five scale, and

WHEREAS, ANC 2B believes that the recommendations as a whole, and the
implementation of them in a coordinated manner, are vital to the success of the local
parking management pilot program and the improvement of productivity of curbside
space within Dupont Circle.

THEREFORE, BE IT RESOLVED that ANC 2B requests that DDOT proceed with the
local parking management pilot program by implementing the following
recommendations:

For neighborhood residential parking:

- Implement smaller local parking management zones within Ward 2, starting with
  a zone 2B/2D initially aligned with ANC boundaries,
- Designate all currently-undesignated parking spaces as RPP/local zone or metered
  as appropriate for their location,
● Implement a pay-to-park program that designates all RPP-designated public street spaces as requiring payment by all vehicles not having the local zone’s residential parking permit, a valid local zone visitor permit, or other authorized permit,
● Govern the pay-to-park program by time-of-day or day-of-week restrictions and consider adjusting hourly pricing to manage for a level of vacancy, similar to performance parking,
● Implement an online system for local zone residents to purchase time-limited (daily/multi-day/weekly) visitor parking permits for identified guest vehicles,
● Consider implementing an application process to purchase need-based parking permits within the local zone such as for home-healthcare workers or school teachers,
● Consolidate all residential parking permits issued under the DDOT online system to ensure validity and reduce the potential for abuse,
● Consider imposing reasonable limits, or graduated cost increases, for multiple residential parking permits registered at a single dwelling unit,
● Implement grid-style signage to reduce the number of signs and provide “at-a-glance” understanding of when parking in a space is legal, the cost, and what permits are honored,
● Right size diplomatic parking,

For neighborhood commercial curbside management:

● Consider additional paid commercial loading zones (fixed and flex/time-of-day),
● Based upon results from the nightlife parking demonstration in South Dupont, consider additional pickup/dropoff zones for ride-hail vehicles, taxicabs, and limousines,
● Evaluate dedicated taxi stand locations,
● Leverage underutilized off-street parking where feasible,

For all neighborhood curbsides:

● Improve wayfinding signage,
● Consider curb, travel lane, or other forms of indicators to clearly delineate where vehicles are allowed, the location of permanent No Parking areas such as building entrances and fire lanes, and the borders of bus stops or hydrants, and
● Implement practices to provide consistent, effective, and timely enforcement.

BE IT FURTHER RESOLVED that ANC 2B asks the Council of the District of Columbia to provide the requisite legislative and fiscal authority in a timely manner to allow DDOT to expedite implementation of this project, and to also require the full cooperation of the Department of Public Works to provide necessary enforcement and other supporting services for this project.

BE IT FURTHER RESOLVED that ANC 2B requests that DDOT present an update on implementation progress to ANC 2B by the ANC’s December 2018 meeting, and to establish a schedule for subsequent progress reports to the ANC by DDOT.
